What is GB ? What is FZ ? What is QB?

What is the labeling requirement?

Government Attitude?

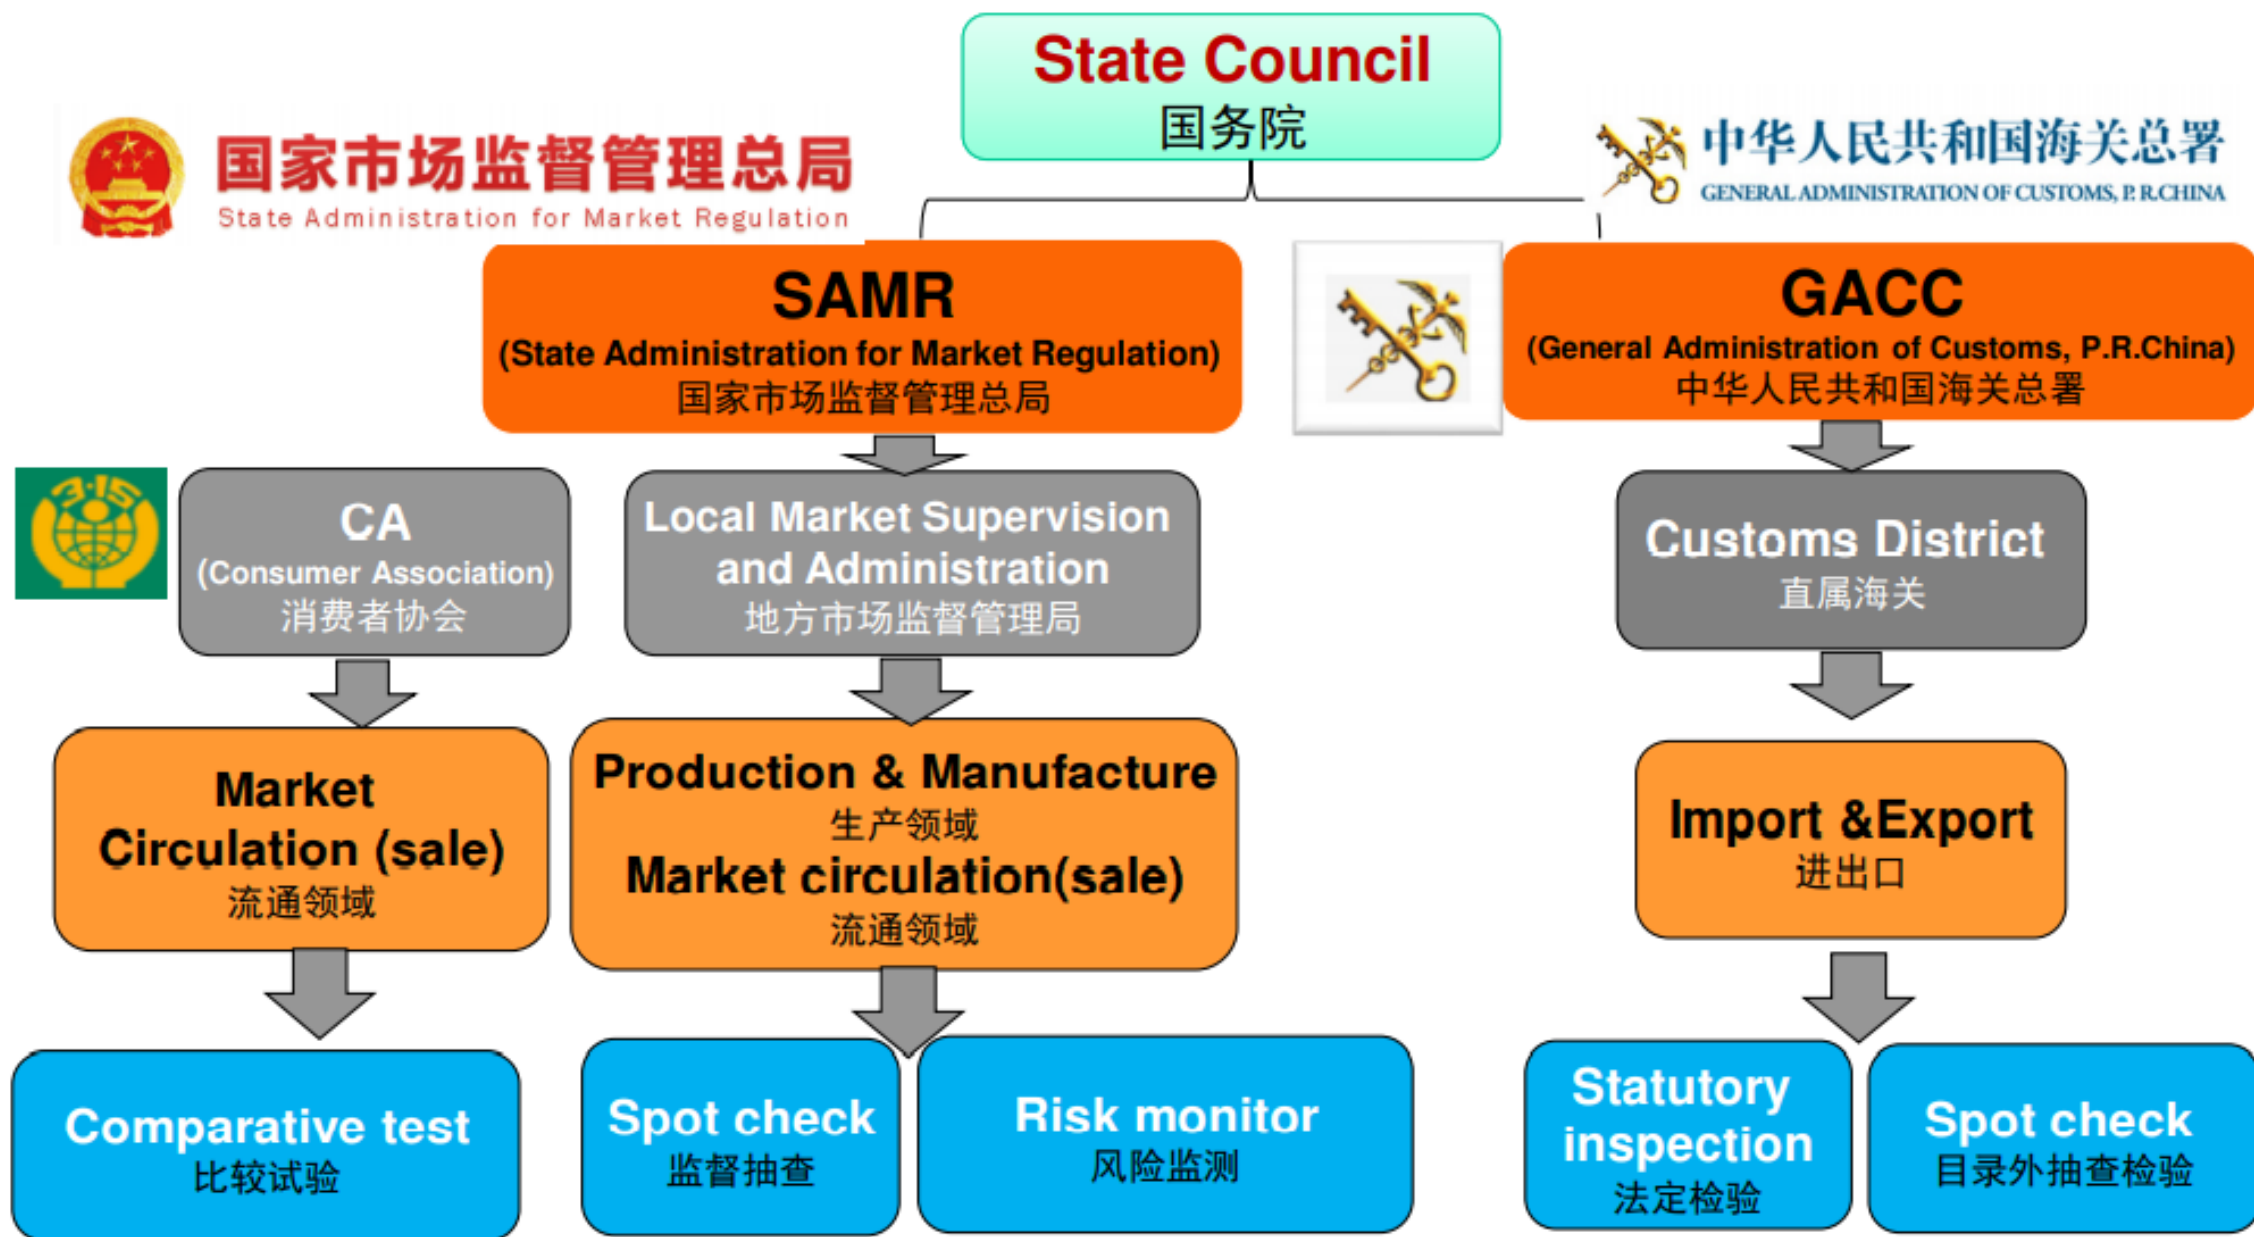

What regulations do we need to comply with?

What is the penalty for non-compliance?

Test reports must be in Chinese?

Who is responsible for quality supervision?

Product Compliance Surveillance System in China Market

■ Before enter China Market

- Managed by **GACC**
- Meet Export & Import legal inspection requirement
- List of the Entry-Exit product under inspection and quaran

■ After enter China market

- Managed by **SAMR**
- Meet the local market supervision requirement

HOW CHINA OFFICIAL PERFORMS SURVEILLANCE SYSTEM?

CIQ

- Enforcement: At the ports, never at domestic market
- Frequency: 50-100% or at the discretion of officials by HS code
- Violation disposition: Recall/ Destruction/ Media exposure

QTS

- Enforcement: At manufacturing stage/ domestic market
- Frequency: Seasonal
- Violation disposition: Recall/ Destruction/ Media exposure

AIC

- Enforcement: At domestic market
- Frequency: Very frequent
- Violation disposition: Fine based on multiples of retailed value/ Product withdrawn/ Media exposure

CCA

- Enforcement: At domestic market
- Frequency: Follow consumer complaints and concerns
- Violation disposition: Media exposure

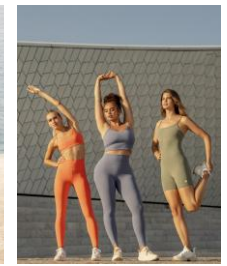

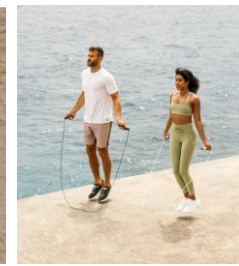

China Mandatory GB Standards for Softlines including Apparel:

GB 5296.4-2012 消费品使用说明 第4部分 纺织品和服装使用说明 Instructions for use of products of consumer interest – Part 4: Textiles and apparel

To comply with this standard, our **product must have a permanently attached label** which indicates proper instructions for use. Essential content required for our product's “**Instructions for use**” tag include:

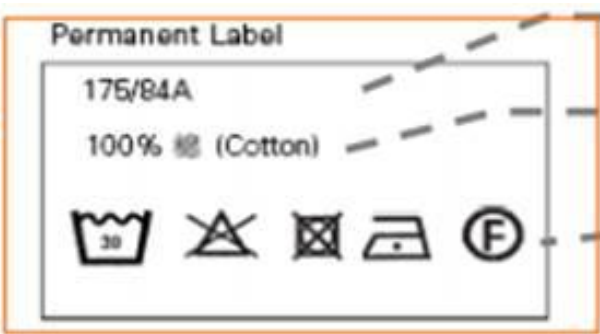

1. The legally registered **name and address of the manufacturer**. For imported textiles and apparel, the country of origin should also be included.
2. **Product name**.
3. **Product specification and apparel size designation**, which should be permanently attached to the product in accordance with **GB/T 1335.1**.
4. **Fiber content** should also appear on a permanently attached label in accordance with **FZ/T 01053**.
5. **Care instructions** (permanently attached) in accordance with **GB/T 8685**.
6. **Product standard code**: the applicable national or industry standard against which our product was tested, which can be attached to the product's packaging or to the product in the form of a hanging tag.
7. **Product quality classification**: based on the requirements specified by the applied standard.

GB 5296.4 Instructions for Use of products of consumer interest – Part 4: Textiles and apparel

Template of “Permanent Label” and “Hangtag” as follows, these are required:

Permanent Label
耐久标

Product sizes or specification 产品号型或规格

Fiber composition and contents 纤维成分及含量

Care instruction 维护方法

GB/T 29868-2020 (newer version) 针织专业运动服装通用技术要求 is for Sports protective products-Knitted products general technical requirements

GB/T 21980-2017 专业运动服装和防护用品通用技术规范 is for General technical specification for sportswear and protecting suits

More instances:

- GB/T 32614-2016 for Outdoor sportswear-water resistant garments
- GB/T 22849-2014 Knitted T-shirt
- GB/T 2664-2017 for Men's suits and coats
- FZ/T 81008-2011 for Jackets
- FZ/T 73020-2012 for Knitted casual wear
- QBT 2155-2010 Travelling case and trolley bag
- ETC-----

For being able to tell which GB Product Standards applied - Need to know:

- The material composition of apparels such as Fiber Content ?% of Polyester, Nylon, Spandex, etc---
- The weaving construction of apparels such as Knitted or Woven
- The designed usage of apparels such as Man, Women and Children
- The performance of apparels such as Water Resistance/Water Repellency, etc----

➤ There are over 700 kinds of Product Standard in China now~~~

Must provide each classification of at least one **CNAS** & **CMA** Quality Report from the qualified Lab. with authority issued by China Officials.

CMA & CNAS

资质认定和实验室认可

CMA is the abbreviation of **China Inspection Body and Laboratory Mandatory Approval**. The government qualification accreditation department issue qualification accreditation certificate and permit the use of CMA logo.

CMA是**China Inspection Body and Laboratory Mandatory Approval**的英文缩写。国家检验检测机构资质认定部门负责对检验检测机构核发资质认定证书和资质认定标志（CMA标志）。

CNAS is the abbreviation of China National Accreditation Service for Conformity Assessment. CNAS issue CNAS laboratory accreditation certificate and permit the use of the CNAS logo.

CNAS是**China National Accreditation Service for Conformity Assessment**的英文缩写。中国合格评定国家认可委员会负责对检测实验室核发CNAS实验室认可证书和CNAS实验室认可标识（CNAS认可标识）
